

WÖLVHAMMER

BOOT SIZING AND FITTING GUIDE

Foot Measurement

- Step 1:** Tape a sheet of paper flat to the floor. Trace the shape of your right foot on the paper and draw a line marking the furthest points between toe and heel as illustrated right (A and B).
- Step 2:** Measure the length between points A and B using a ruler.
- Step 3:** Repeat the above steps for your left foot and compare the measurements.
- Step 4:** Use the longest of the two measurements to determine your size on the Size Conversion Chart.

ATTENTION: for the most precise measurements it is important to use three-digit measurements. For example, 292mm or 29.2cm is recommended. 29cm is NOT recommended for reasons of fit and sizing accuracy.

Size Conversion Chart

mm	Euro	US Men's	US Women's	Japan
237.5-241	38	6	7	24
241.5-247	39	7	8	25
247.5-254	40	7.5	9	25.5
254.5-261	41	8	9.5	26
261.5-267	42	8.5	10	26.5
267.5-272	43	9	10.5	27
